About us

WE Academy was founded in 2003 by Mr. Hogan Park with the vision of supporting anyone who wishes to learn English. Guided by the belief that education should be accessible to everyone, he has focused on providing high-quality education at an affordable cost, carefully selecting qualified teachers, and implementing modern teaching methods.

Today, our academy welcomes students from various countries including Korea, Japan, Taiwan, China, Vietnam, and Mongolia. Under the guidance of experienced teachers, students are able to study effectively in an international learning environment. In addition, each international student is supported by a dedicated manager from their own country, allowing any concerns or difficulties during their studies to be addressed promptly.

Teachers

Our school founder, Mr. Hogan Park, selects all teachers based not only on their skills but also on their character. He believes that good teachers can guide students, help them build good habits, and effectively teach knowledge.

Before being hired, teachers go through several evaluations to test both their knowledge and teaching abilities. Only those who pass all qualifications are accepted. In addition, WE ACADEMY teachers regularly take evaluations to prove that they maintain the highest standards.

Teachers actively participate in all educational activities and help create an environment of cooperation and friendship.

All teachers have extensive teaching experience as well as international knowledge and experience. Therefore, students can not only improve their English skills but also learn expressions and knowledge related to science, business, art, and literature while developing independent learning habits.

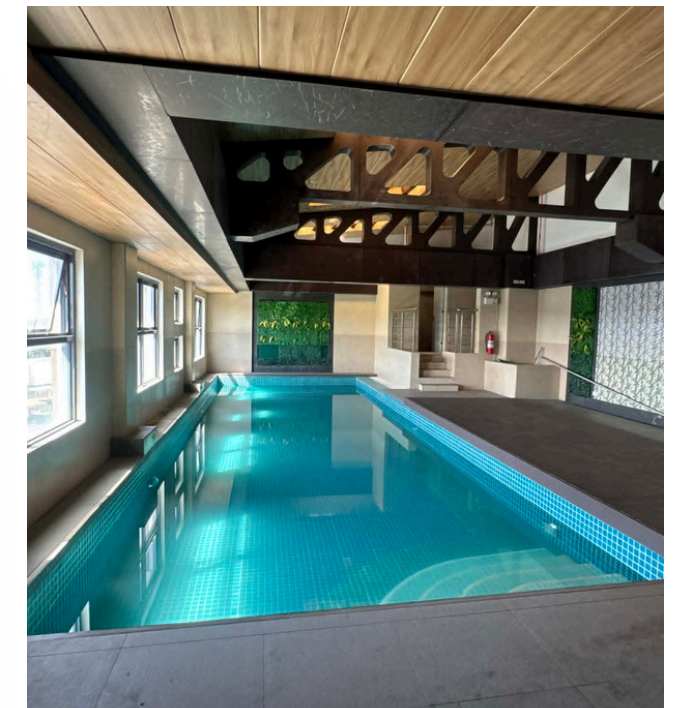

Campus

Our classrooms provide a simple and comfortable environment where every student receives attention and is encouraged to participate actively.

Measure progress effectively

We continuously monitor each student's progress and clearly show their learning results.
