I specialize in teaching ESL for various ages, may it be integrated or focused in reading, speaking, writing, and listening. However, I can also teach TOEIC.

How do you spend the holidays?

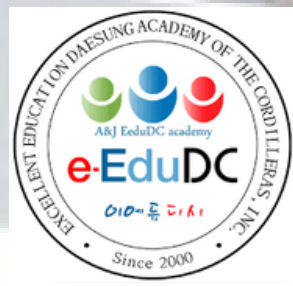

Melancholic and reminiscing, those are the words I can describe my point of view of holidays, for me these are the perfect moments to reflect in my life so I often make some time to meet solitude and serenity.

What kind of class do you specialize in?

I attained qualifications to practice teaching young learners as young as three years old, however because of my experiences I've handled adult students who wanted to engage with the development of their language competency related to their fields.

The beauty of learning English is that you can develop your knowledge while creating your own path to a vast understanding of the world we're living.
